Whereas, in compliance with Section 4303 (2) of Act 30, the County, through its Department of Economic Development, has provided written notice to every municipality within Allegheny County that the County, through action of its Council, intends to establish a C-PACE Program district consisting of the entirety of Allegheny County and to include every municipality within this C-PACE program district; and

Whereas, County Council is of the considered opinion that the establishment of a C-PACE program in Allegheny County in accordance with the legal authority granted by Act 30 will inure to the long-term benefit of the citizens of the County by providing a convenient and useful mechanism to encourage owners of agricultural, commercial and industrial land and buildings to invest in “clean energy projects,” which (1) replace or supplement an existing energy system that utilizes nonrenewable energy with an energy system that utilizes alternative energy; (2) facilitate the installation of an alternative energy system in an existing building or a major renovation of a building; (3) facilitate the retrofit of an existing building to meet high-performance building standards; and (4) install equipment to facilitate or improve energy conservation or energy efficiency, including heating and cooling equipment and solar thermal equipment; “water conservation projects,” which reduce the usage of water or increase the efficiency of water usage; and “alternative energy projects” which promote the generation of energy from “alternative sources” as defined under Pennsylvania’s Alternative Energy Portfolio Standards Act, 73 P.S. § 1648.1 (2004); and
